NZ BRISTLE DECORATIONS – MADE FROM RENEWABLE NATURAL BURI FIBRE

Handmade in the Philippines by artisans that individually craft each item. The wood beaks and feet are hand carved to shape.

The buri palm grows in abundance in Southeast Asia. Local communities have passed down the weaving and craftsmanship expertise of the buri fibre through generations. These skills contribute to the preservation of traditional knowledge and cultural heritage in the region.

CHRISTMAS RIBBON ISN'T JUST FOR GIFTS. IT ALSO LOOKS GREAT ON YOUR CHRISTMAS TREE

Adding ribbon to your tree, wreath or around your home on bannisters, gifts and table centres instantly creates a mood that is cohesive between rooms. Ribbon can be tied in a bow and used as a tree topper or threaded through the tree to add depth and drama. Velvet adds a luxury feel. Metallic sheers or mesh add a feeling of movement. Layer ribbon by width and/or texture to add a dynamic vibe. Allow 20 to 50 meters of ribbon for a 210cm tree. Very wide ribbon often is the most effective on trees. Add ribbon on a tree after the lights, before the other decorations. After adding the ribbon step back, take a photo, it'll be obvious what needs to be tweaked!
